

Us Too Center

Learning and Recreational Program

*Was your child found ineligible for extended school year?

*Are you concerned that your child may regress over the summer?

*Do you want your child to get a jumpstart on the next school year?

Us Too Center is offering a learning and recreational program throughout the entire summer to meet these and other goals you may have for your child.

The program will offer an IBI structured classroom setting in which your child will rotate through different learning stations, fitness/sensory stations and one 30-minute one-on-one gymnastics class.

The classes are run by qualified instructors who have been trained by our team of specialists which includes a speech therapist, physical therapist and doctoral level BCBA.

We encourage families who are interested to bring their latest IEP goals in order to prevent regression over the summer months. Additionally, more advanced goals will be developed when appropriate to challenge the children and monthly progress reports will be provided.

Ages 3-8

Time: Monday – Friday (2 ½ hours per day)

Cost: \$75 per day
